

INTEL SOFTWARE LICENSE AGREEMENT

(OEM / ODM/IHV / ISV Distribution & Single User)

IMPORTANT - READ BEFORE COPYING, INSTALLING OR USING.

Do not use or load software from this site or any associated materials until you have carefully read the following terms and conditions. By loading or using the software or associated materials, you agree to the terms of this Agreement. If you do not wish to so agree, do not install or use the software or associated materials.

To the extent that the Software includes any Open Source Software, the terms of the Open Source Software license accompanying such Open Source Software will govern the use of such software. The terms of this Agreement will not apply to such software.

Please also note:

- If you are an Original Equipment Manufacturer (OEM), Original Device Manufacturer (ODM), Independent Hardware Vendor (IHV) or Independent Software Vendor (ISV), this complete LICENSE AGREEMENT applies;
- If you are an End-User, then only Exhibit A, the INTEL SOFTWARE LICENSE AGREEMENT, applies.

For OEMs, ODMs, IHVs and ISVs:

DEFINITIONS:

"Derivative Work" means a derivative work, as defined in 17 U.S.C. § 101, of the Software Source Code, that You developed.

"End User" means the ultimate consumer for the hardware device which makes use of the Software.

"Executable Code" means computer programming code in binary form suitable for machine execution by a processor without the intervening steps of interpretation or compilation.

"Licensed Patent Claims" means the claims of Intel's patents that are necessarily and directly infringed by the reproduction and distribution of the Software that is authorized in this Agreement, when that Software is in its unmodified form as delivered by Intel to You and not modified or combined with anything else. Licensed Patent Claims are only those claims that Intel can license without paying, or getting the consent of, a third party.

"Open Source Software" means

(A) any software that requires as a condition of use, modification or distribution of the software that that software or other software incorporated into, derived from or distributed with that software:

- be disclosed or distributed in Source Code;
- be licensed by the user to third parties for the purpose of making or distributing derivative works; or
- be redistributable at no charge.

(B) Open Source Software includes, without limitation, software licensed or distributed under any of the following licenses or distribution models, or licenses or distribution models substantially similar to any of the following:

- GNU's General Public License (GPL) or Lesser/Library GPL (LGPL);
- the Artistic License (e.g., PERL);
- the Mozilla Public License;
- the Netscape Public License;
- the Sun Community Source License (SCSL);
- the Sun Industry Source License (SISL); and
- the Common Public License (CPL).

"Software" means the computer program, in Executable Code and Source Code and any accompanying documentation as delivered by Intel to You, and any updated or improved version of the program that Intel provides to You under this Agreement, if any, but does not include Open Source Software or any computer programming code that is subject to an agreement, obligation or license (whether or not accompanying the computer program) intended to supersede or override this Agreement.

"Source Code" means a form in which a computer program's logic is easily deduced by a human being with skill in the art, such as a printed listing of the program or a form from which a printed listing can be easily recognized.

GRANT. Subject to the limitations set forth in this Agreement, (including the limitation specified below on the Microsoft software), Intel hereby grants You, during the term of this Agreement, a non-transferable, non-exclusive, limited right and license:

(A) under Intel's copyrights, to:

- (1) copy all or any portion of the Software solely for Your internal development purposes; provided, however, that this license does not include the right to sublicense, and may be exercised only by Your employees and only within Your facilities;
- (2) distribute the Software, solely as Executable Code. This license includes the right to sublicense, but only the rights to execute, perform and display, without the right to grant further sublicenses;
- (3) prepare Derivative Works provided, however, that this license may be exercised only by Your employees and only within Your facilities;
- (4) copy, distribute and use the End User documentation, if any, as is reasonably necessary for You to exercise Your license rights under this license grant; and
- (5) if you are an ISV, you may also distribute those portions of the Software which Intel has provided to you in Source Code to Your OEM, ODM or IHV customers but only under a written agreement with terms at least as restrictive as those contained in this Agreement and only to those OEM, ODM or IHV customers who have already entered into this Agreement with Intel.

(B) under Intel's Licensed Patent Claims, to:

- (1) make copies of the Software internally only, but this right does not include the right to sublicense;
- (2) use the Software internally only, but this right does not include the right to sublicense; and
- (3) offer to distribute, and distribute, but not sell, the Software under the license under Intel's copyrights granted in Section (A) above, but only under the terms of that license under Intel's copyrights and not as a sale, but this right does not include the right to sublicense;
 - (a) provided, however, that You may only distribute the Software in executable code and only under an agreement at least as restrictive as those contained in Intel's End User Software License Agreement attached as Exhibit A and only for use with Intel Products; and
 - (b) provided, further, that the license under the Licensed Patent Claims does not and will not apply to any modifications to, or Derivative Works of, the Software, whether made by You, Your contractor or Your customer (which, for all purposes under this Agreement, will mean either a customer or a distributor), or any third party even if the modification and derivative works are permitted under this Agreement.

TRANSFER. If You are not the final manufacturer or vendor of a hardware device or software program incorporating the Software, then You may transfer a copy of the Software in source code (and related end-user documentation) to Your recipient for use in accordance with the terms of this Agreement, provided such recipient agrees to be fully bound by the terms hereof. You will not otherwise assign, sublicense, lease, or in any other way transfer or disclose Software to any third party. You will not reverse-compile, disassemble or otherwise reverse-engineer the Software.

ACCESS; USE OF CONTRACTORS. Except as expressly permitted herein, You will not allow the Software to be accessed or used by third parties or anyone other than Your employees whose duties require access or use. Notwithstanding the foregoing, Your authorized consultants and subcontractors may access the Software in source code form where the access is incidental to their performing services on Your behalf consistent with the license granted to You under this Agreement, provided:

You first require those consultants and subcontractors to sign written agreements obligating them to observe the same restrictions concerning the Software as are contained in this Agreement; and

You are fully liable to Intel for the actions and inaction of those consultants and subcontractors.

OPEN SOURCE SOFTWARE. You may not subject any non-Open Source Software included with the Software, in whole or in part, to any license obligations of Open Source Software including without limitation combining or distributing the Software with Open Source Software in a manner that subjects the Software or any portion of the Software provided by Intel hereunder to any license obligations of such Open Source Software.

NOTICE RELATING TO MICROSOFT SOFTWARE. The Software may contain technology owned by Microsoft Corporation. If included, this technology cannot be used or further distributed without a license from Microsoft or a Microsoft Affiliate. You may not redistribute the Microsoft software, if any.

MEDIA FORMAT CODECS AND DIGITAL RIGHTS MANAGEMENT. You acknowledge and agree that your use of the Software or distribution thereof with your products as permitted by this license may require you to procure license(s) from one or more third parties that may hold intellectual property rights applicable to the media format transcoding and/or digital rights management capabilities of the Software, if any.

NO OTHER RIGHTS. The Software is protected by the intellectual property laws of the United States and other countries, and international treaty provisions. Except as otherwise expressly above, Intel grants no express or implied rights under Intel patents, copyrights, trademarks, or other intellectual property rights. Except as expressly stated in this Agreement, no license or right is granted to You directly or by implication, inducement, estoppel or otherwise. Intel will have the right to inspect or have an independent auditor inspect Your relevant records to verify Your compliance with the terms and conditions of this Agreement.

CONFIDENTIALITY. If You wish to have a third party consultant or subcontractor ("Contractor") perform work on Your behalf which involves access to or use of Software, You will obtain a written confidentiality agreement from the Contractor which contains terms and obligations with respect to access to or use of Software no less restrictive than those set forth in this Agreement and excluding any distribution rights, and use for any other purpose. Otherwise, You will not disclose the terms or existence of this Agreement or use Intel's Name in any publications, advertisements, or other announcements without Intel's prior written consent. You do not have any rights to use any Intel trademarks or logos.

OWNERSHIP OF SOFTWARE AND COPYRIGHTS. Title to all copies of the Software remains with Intel or its suppliers. The Software is copyrighted and protected by the laws of the United States and other countries, and international treaty provisions. You may not remove any copyright notices from the Software. Intel may make changes to the Software, or to items referenced therein, at any time without notice, but is not obligated to support or update the Software. Except as otherwise expressly provided, Intel grants no express or implied right under Intel patents, copyrights, trademarks, or other intellectual property rights. You may transfer the Software only if the recipient agrees to be fully bound by these terms and if you retain no copies of the Software.

SUPPORT. Intel may make changes to the Software, or to items referenced therein, at any time without notice, but is not obligated to support, update or provide training for the Software. Intel may in its sole discretion offer such services under separate terms at Intel's then-current rates. You may request additional information on Intel's service offerings from an Intel sales representative. You agree to be solely responsible to Your End Users for any update or support obligation or other liability which may arise from the distribution of the Software.

EXCLUSION OF OTHER WARRANTIES. THE SOFTWARE IS PROVIDED "AS IS" WITHOUT ANY EXPRESS OR IMPLIED WARRANTY OF ANY KIND INCLUDING WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE. Intel does not warrant or assume responsibility for the accuracy or completeness of any information, text, graphics, links or other items contained within the Software.

LIMITATION OF LIABILITY. IN NO EVENT SHALL INTEL OR ITS SUPPLIERS BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, LOST PROFITS, BUSINESS INTERRUPTION, OR LOST INFORMATION) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF INTEL HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS PROHIBIT EXCLUSION OR LIMITATION OF LIABILITY FOR IMPLIED WARRANTIES OR CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. YOU MAY ALSO HAVE OTHER LEGAL RIGHTS THAT VARY FROM JURISDICTION TO JURISDICTION. THE SOFTWARE LICENSED HEREUNDER IS NOT DESIGNED OR INTENDED FOR USE IN ANY MEDICAL, LIFE SAVING OR LIFE SUSTAINING SYSTEMS, TRANSPORTATION SYSTEMS, NUCLEAR SYSTEMS, OR FOR ANY OTHER MISSION CRITICAL APPLICATION IN WHICH THE FAILURE OF THE SOFTWARE COULD LEAD TO PERSONAL INJURY OR DEATH. YOU SHALL INDEMNIFY AND HOLD INTEL AND THE INTEL PARTIES HARMLESS AGAINST ALL CLAIMS, COSTS, DAMAGES, AND EXPENSES, AND REASONABLE ATTORNEY FEES ARISING OUT OF, DIRECTLY OR INDIRECTLY, THE DISTRIBUTION OF THE SOFTWARE AND ANY CLAIM OF PRODUCT LIABILITY, PERSONAL INJURY OR DEATH ASSOCIATED WITH ANY UNINTENDED USE, EVEN IF SUCH CLAIM ALLEGES THAT AN INTEL PARTY WAS NEGLIGENT REGARDING THE DESIGN OR MANUFACTURE OF THE SOFTWARE. THE LIMITED REMEDIES, WARRANTY DISCLAIMER AND LIMITED LIABILITY ARE FUNDAMENTAL ELEMENTS OF

THE BASIS OF THE BARGAIN BETWEEN INTEL AND YOU. INTEL WOULD NOT BE ABLE TO PROVIDE THE SOFTWARE WITHOUT SUCH LIMITATIONS.

TERMINATION OF THIS AGREEMENT. Intel may terminate this Agreement immediately, upon notice from Intel, if You violate its terms. Upon termination, You will immediately destroy the Software (including providing certification of such destruction back to Intel) or return all copies of the Software to Intel. In the event of termination of this Agreement, all licenses granted to You hereunder will immediately terminate, except for licenses that you have previously distributed to Your end-users pursuant to the license grant above.

APPLICABLE LAWS. Any claims arising under or relating to this Agreement will be governed by the internal substantive laws of the State of Delaware or federal courts located in Delaware, without regard to principles of conflict of laws. Each Party hereby agrees to jurisdiction and venue in the courts of the State of California for all disputes and litigation arising under or relating to this Agreement. The Parties agree that the United Nations Convention on Contracts for the International Sale of Goods is specifically excluded from application to this Agreement. The Parties consent to the personal jurisdiction of the above courts.

EXPORT REGULATIONS / EXPORT CONTROL. You will not export, either directly or indirectly, any product, service or technical data or system incorporating such items without first obtaining any required license or other approval from the U. S. Department of Commerce or any other agency or department of the United States Government. In the event any product is exported from the United States or re-exported from a foreign destination by You, You will ensure that the distribution and export/re-export or import of the product is in compliance with all laws, regulations, orders, or other restrictions of the U.S. Export Administration Regulations and the appropriate foreign government. You agree that neither you nor any of your subsidiaries will export/re-export any technical data, process, product, or service, directly or indirectly, to any country for which the United States government or any agency thereof or the foreign government from where it is shipping requires an export license, or other governmental approval, without first obtaining such license or approval.

GOVERNMENT RESTRICTED RIGHTS. The Software is a "commercial item" as that term is defined in 48 C.F.R. 2.101, consisting of "commercial computer software" and "commercial computer software documentation" as such terms are used in 48 C.F.R. 12.212. Consistent with 48 C.F.R. 12.212 and 48 C.F.R 227.7202-1 through 227.7202-4, You will provide the Software to the U.S. Government as an End User only pursuant to the terms and conditions therein. Contractor or Manufacturer is Intel Corporation, 2200 Mission College Blvd., Santa Clara, CA 95052.

ASSIGNMENT. You may not delegate, assign or transfer this Agreement, the license(s) granted or any of Your rights or duties hereunder, expressly, by implication, by operation of law, by way of merger (regardless of whether You are the surviving entity) or acquisition, or otherwise and any attempt to do so, without Intel's express prior written consent, will be null and void. Intel may assign this Agreement, and its rights and obligations hereunder, in its sole discretion.

ENTIRE AGREEMENT. The terms and conditions of this Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof, and merges and supersedes all prior, contemporaneous agreements, understandings, negotiations and discussions. Neither of the parties hereto will be bound by any conditions, definitions, warranties, understandings or representations with respect to the subject matter hereof other than as expressly provided for herein. Intel is not obligated under any other agreements unless they are in writing and signed by an authorized representative of Intel. Without limiting the foregoing, terms and conditions on any purchase orders or similar materials submitted by You to Intel, and any terms contained in Intel's standard acknowledgment form that are in conflict with these terms, will be of no force or effect.

ATTORNEYS' FEES. In the event any proceeding or lawsuit is brought by Intel or You in connection with this Agreement, the prevailing party in such proceeding will be entitled to receive its costs, expert witness fees and reasonable attorneys' fees, including costs and fees on appeal.

NO AGENCY. Nothing contained herein will be construed as creating any agency, employment relationship, partnership, principal-agent or other form of joint enterprise between the parties.

SEVERABILITY. In the event that any provision of this Agreement will be unenforceable or invalid under any applicable law or be so held by applicable court decision, such unenforceability or invalidity will not render this Agreement unenforceable or invalid as a whole, and, in such event, such provision will be changed and interpreted so as to best accomplish the objectives of such unenforceable or invalid provision within the limits of applicable law or applicable court decisions.

WAIVER. The failure of either party to require performance by the other party of any provision hereof will not affect the full right to require such performance at any time thereafter; nor will the waiver by either party of a breach of any provision hereof be taken or held to be a waiver of the provision itself.

LANGUAGE. This Agreement is in the English language only, which language will be controlling in all respects, and all versions of this Agreement in any other language will be for accommodation only and will not be binding on you or Intel. All communications and notices made or given pursuant to this Agreement, and all documentation and support to be provided, unless otherwise noted, will be in the English language.

EXHIBIT "A"

INTEL END USER LICENSE AGREEMENT (Final, Single User)

IMPORTANT - READ BEFORE COPYING, INSTALLING OR USING.

Do not use or load software from this site or any associated materials until you have carefully read the following terms and conditions. By loading or using the Software, you agree to the terms of this Agreement. If you do not wish to so agree, do not install or use the Software.

LICENSE. You have a license under Intel's copyrights to copy Intel's Software in binary form, (with the accompanying documentation, the "Software") for your organization's internal use only in connection with Intel products for which the Software has been provided, subject to the following conditions:

- (a) You may not disclose, distribute or transfer any part of the Software except as provided in this Agreement, and you agree to prevent unauthorized copying of the Software.
- (b) You may not reverse engineer, decompile, or disassemble the Software.
- (c) You may not sublicense the Software.
- (d) The Software may contain the software and other property of third party suppliers, some of which may be identified in, and licensed in accordance with, an enclosed license.txt file or other text or file.
- (e) Intel has no obligation to provide any support, technical assistance or updates for the Software.

NO IMPLIED LICENSES OR OTHER RIGHTS. The consideration under this Agreement is only for the licenses that Intel expressly grants to You in the preceding paragraphs. Any other rights including, but not limited to, patent rights, would require an additional license and additional consideration. Nothing in this Agreement requires or will be treated to require Intel to grant any such additional license. An essential basis of the bargain in this Agreement is that Intel grants You no licenses or other rights including, but not limited to, patent, copyright, trademark, trade name, service mark or other intellectual property licenses or rights, by implication, estoppel or otherwise, except for the licenses expressly granted in the preceding paragraphs. Specifically, except for the licenses expressly granted in the preceding paragraphs, Intel grants no licenses or other rights, expressly or by implication, estoppel or otherwise, to:

- (1) make, use, sell, offer for sale, or import modifications of the Software;
- (2) sell or offer to sell the Software;
- (3) combine the Software or modified versions of the Software with other items or to use any such combination; or
- (4) any claims of any patents, patent applications, or other patent rights of Intel.

You acknowledge that there are significant uses of the Software in its original, unmodified and uncombined form. The consideration for the license in this Agreement reflects Intel's continuing right to assert patent claims against any modifications or derivative works (including, without limitation, error corrections and bug fixes) of, or combinations with, the Software that You or third parties make that infringe any Intel patent claim.

OWNERSHIP OF SOFTWARE AND COPYRIGHTS. Title to all copies of the Software remains with Intel or its suppliers. The Software is copyrighted and protected by the laws of the United States and other countries, and international treaty provisions. You may not remove any copyright notices from the Software. Except as otherwise expressly provided above, Intel grants no express or implied right under Intel patents, copyrights, trademarks, or other intellectual property rights. Transfer of the license terminates your right to use the Software.

DISCLAIMER OF WARRANTY. [Intel warrants that the media on which the Software is furnished will be free from defects in material and workmanship under normal use for a period of 90 days from the date of purchase. Intel's entire liability and your exclusive remedy will be the replacement of the Software if the media on which the Software is furnished proves to be defective. This warranty is void if the media defect has resulted from accident, abuse, or misapplication. [Except as provided above, the] [The] Software is provided "AS IS" without warranty of any kind, EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

LIMITATION OF LIABILITY. NEITHER INTEL NOR ITS SUPPLIERS WILL BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF PROFITS, LOSS OF USE, INTERRUPTION OF BUSINESS, OR INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY KIND) WHETHER UNDER THIS AGREEMENT OR OTHERWISE, EVEN IF INTEL HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

LICENSE TO USE COMMENTS AND SUGGESTIONS. This Agreement does NOT obligate You to provide Intel with comments or suggestions regarding the Software. However, if You provide Intel with comments or suggestions for the modification, correction, improvement or enhancement of (a) the Software or (b) Intel products or processes that work with the Software, you grant to Intel a non-exclusive, worldwide, perpetual, irrevocable, transferable, royalty-free license, with the right to sublicense, under Your intellectual property rights, to incorporate or otherwise utilize those comments and suggestions.

TERMINATION OF THIS LICENSE. Intel or the sublicensor may terminate this license at any time if You are in breach of any of its terms or conditions. Upon termination, You will immediately destroy the Software, and return to Intel all copies of the Software.

THIRD PARTY BENEFICIARY. Intel is an intended beneficiary of the End User License Agreement and has the right to enforce all of its terms.

U.S. GOVERNMENT RESTRICTED RIGHTS. No Government procurement regulation or contract clauses or provision will be considered a part of any transaction between the Parties under this Agreement unless its inclusion is required by statute, or mutually agreed upon in writing by the Parties in connection with a specific transaction. The technical data and computer software covered by this license is a "Commercial Item," as that term is defined by the FAR 2.101 (48 C.F.R. 2.101) and is "commercial computer software" and "commercial computer software documentation" as specified under FAR 12.212 (48 C.F.R. 12.212) or DFARS 227.7202 (48 C.F.R. 227.7202), as applicable. This commercial computer software and related documentation is provided to end users for use by and on behalf of the U.S. Government, with only those rights as are granted to all other end users under the terms and conditions in this Agreement. Use for or on behalf of the U.S. Government is permitted only if the party acquiring or using this Software is properly authorized by an appropriate U.S. Government official. This use by or for the U.S. Government clause is in lieu of, and supersedes, any other FAR, DFARS, or other provision that addresses Government rights in the computer Software or documentation covered by this license. All copyright licenses granted to the U.S. Government are coextensive with the technical data and computer Software licenses granted in this Agreement. The U.S. Government will only have the right to reproduce, distribute, perform, display, and prepare Derivative Works as needed to implement those rights.

EXPORT LAWS. You acknowledge that the Software and all related technical information or materials are subject to export controls under the laws and regulations of the United States and any other applicable governments. You agree to comply with these laws and regulations governing export, re-export, import, transfer, distribution, and

use of the Software, technical information and materials. In particular, but without limitation, the Software, technical information and materials may not be exported or re-exported (a) into any U.S. embargoed countries or (b) to any person or entity listed on a denial order published by the U.S. government or any other applicable governments. By using the Software, technical information and materials, you represent and warrant that you are not located in any such country or on any such list. You also agree that you will not use the Software, technical information and materials for any purposes prohibited by the U.S. government or other applicable governments law, including, without limitation, the development, design, manufacture or production of nuclear, missile, chemical or biological weapons. You confirm that the Software, technical information and materials will not be re-exported or sold to a third party who is known or suspected to be involved in activities including, without limitation, the development, design, manufacture, or production of nuclear, missile, chemical or biological weapons. You agree that any Software, technical information or materials subject to control under defense laws and regulations (e.g., the International Traffic in Arms Regulations [ITAR]) must not be transferred to non-U.S. persons, whether located in the U.S. or abroad, without a government license. You will indemnify Intel against any loss related to Your failure to conform to these requirements.

APPLICABLE LAWS. This Agreement is governed by the laws of the state of Delaware, excluding its principles of conflict of laws and the United Nations Convention on Contracts for the Sale of Goods. You may not export the Software in violation of applicable export laws and regulations.

Your specific rights may vary from country to country.
